THE PROBLEM

INTERNATIONAL JUSTICE MISSION

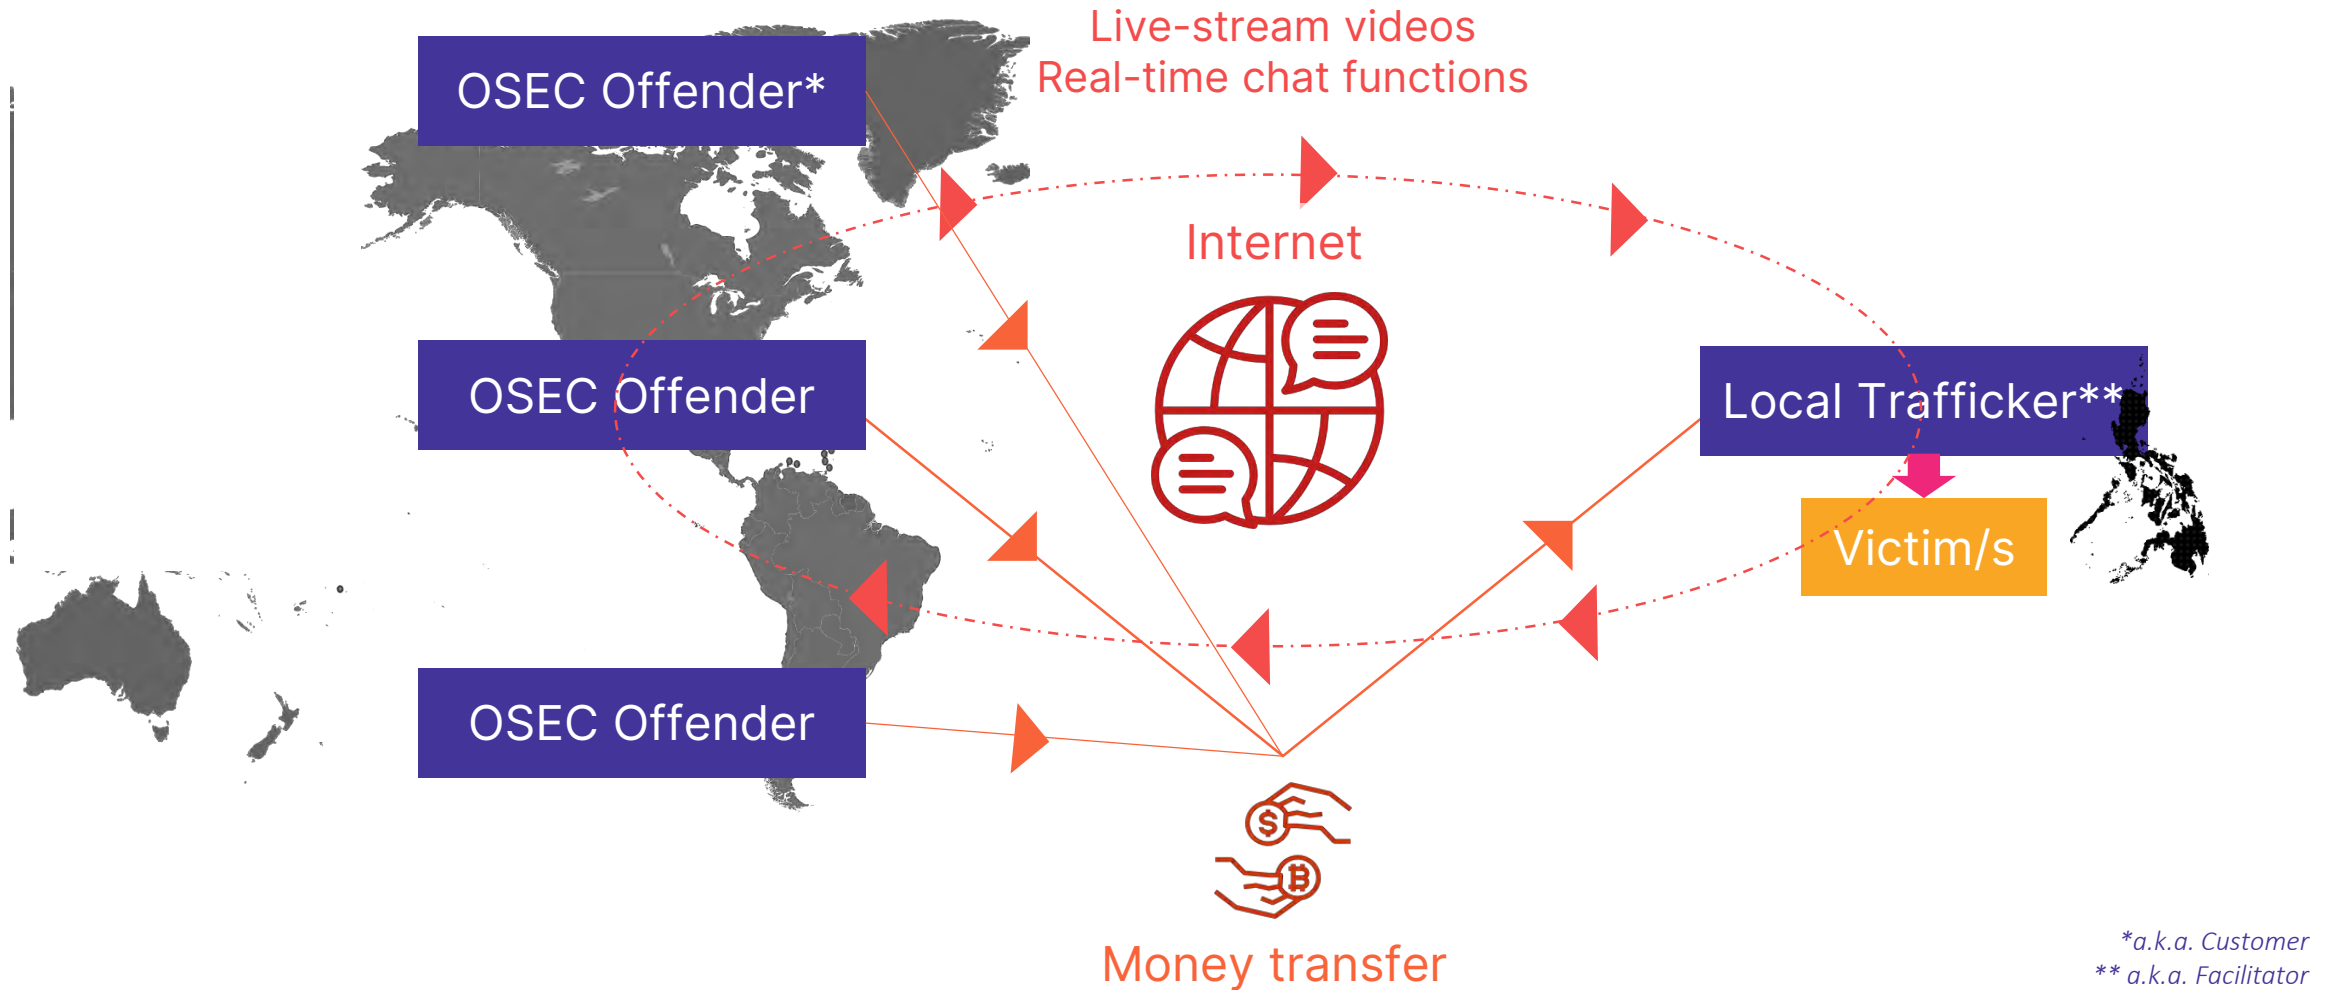

Online Sexual Exploitation of Children

OSEC

- OSEC is the production, for the purpose of online publication or transmission, of visual depictions (e.g. photos, videos, live streaming) of the sexual abuse or exploitation of a minor for a third party who is not in the physical presence of the victim, in exchange for compensation.

Typical OSEC Methodology

*a.k.a. Customer
** a.k.a. Facilitator

What We Have Learned

- OSEC Is not a virtual form of abuse
- OSEC Is a global issue requiring a global response
- The Philippines is known as a global hotspot for OSEC

IJM-supported cases from 2011 to September 2, 2020

“According to a study, which examined cases from 2011 to 2017, OSEC (online sexual exploitation of children) was typically **a family-based crime**, with **41%** of traffickers being biological parents and **42%** being other relatives.”

Dolores Rubia, Director, National Aftercare Development, IJM

“An increase in the incidence of OSEC during lockdowns is most likely because of higher demand from child sex offenders abroad with more time on their hands. Children are not going to school now and are confined in their homes, possibly living with their traffickers. Thus, the lockdowns due to the Covid-19 pandemic have created **a perfect storm** for the abuse of children online.”

Atty. Lucille Dejito, Director, Cebu Field Office, IJM
