# Our Approach

- **Child-Focused.** The Church of the Nazarene recognizes the importance of children as individuals who have value and dignity because they are each created in God's image. Nazarene works to enable children to become the people God created them to be.

- **In order to accomplish this, we address children's specific needs, such as stability, education, food, and clean water. Because we recognize that the children are part of a larger context, we also address their overall situations, including the condition of their families and communities.**

- 
- **Community-Based.** As people who are made in God's image, community members have dignity, value, and capacity to create change themselves. Nazarene Compassionate Ministries equips communities regardless of ethnicity, gender or religion to work alongside community members to develop their own communities and address their own situations and challenges.

• The name Shechem is derived from an ancient word שכם, meaning shoulder. True to its original meaning, we want to be a service provider that will offer shoulder and refuge to survivors of online sexual exploitation of children (OSEC).

- Shechem Children's Home envisions to provide a safe, stable and nurturing environment where survivors can be placed shortly after their rescue and begin the healing from one to three months before transitioning to a long term care placement.

## OSEC and the Pandemic

There is a rising number of cases of online sexual exploitation of children (OSEC) during the COVID-19 pandemic. Since most children are staying at home, some are placed at great risk to be abused online because of the unsafe environment they are living in. The pandemic has made occurrences of OSEC worse with the loss of sources of livelihood and the surge of online activities of minors, among others. Apart from parents peddling their children to online sexual predators, other forms of abuse includes online sexual grooming and the creation and distribution of materials containing abuse and exploitation.

*“I am convinced that any serious contest with evil requires a painful confrontation with the truth. The greatest and most shameful regrets of history are always about the truth we failed to tell, the evil we failed to name.
